-

SIRIUS CORPORATE, SOLUTIONS AND PARTNERSHIPS OVERVIEW

Sirius is a national integrator of technology-based business solutions that span the enterprise, including the data center and lines of business. Sirius helps organizations become more secure, innovative, agile and responsive by providing world-class solutions built on leading technologies, from top strategic partners, delivered by the brightest minds in the business.

THE SIRIUS DIFFERENCE: A RELENTLESS FOCUS ON BUSINESS OUTCOMES

With the right people and the right partners, Sirius is able to focus on solutions to help our clients cut costs, increase reliability, ease the burden of management, maximize flexibility, mitigate risk and improve service.

Sirius ensures its clients' success through a consistent combination of:

- The right skills and technical expertise
- Practical approaches and proven methodologies
- World-class solutions, designed and built on today's leading technologies
- Relationships with the world's top strategic partners

We require our teams to be certified in multiple disciplines and products, so they can help you get from the high-level architecture of a solution all the way down to the technical configuration and implementation of point-products.

Since its founding in 1980, Sirius has grown to be one of the largest IT solutions integrator in the U.S. Today, Sirius offers integrated, multivendor technology solutions that meet the requirements of the full range of organizations, from small businesses with fewer than 500 employees to large enterprises with thousands of employees and hundreds of locations.
