## THE SIRIUS DIFFERENCE

With nearly 20 years of experience delivering leading information security solutions, we help organizations reduce the complexities involved in making technology decisions in a very fast-paced industry.

- Our expertise is not limited to security — we are a \$750+ million practice inside a \$3.5 billion IT integrator
  - One of the top security integrators in North America
  - Custom PoCs and bake-offs with hundreds of solutions in our \$40 million state-of-the-art, ISO-certified Technology Enablement Center, with 50+ engagements annually
  - 2019 CRN Triple Crown Award, six-time winner (Solution Provider 500, Tech Elite 250, Fast Growth 150)
  - Ranked #1 on Channel Futures' 2019, 2018 and 2017 MSP 501 global survey of top managed service providers
- 

## SIRIUS SECURITY SOLUTIONS

The exponential growth of data, increasing attack vectors, stringent data protection and data privacy requirements, and a shortage of skilled personnel have made cybersecurity a dynamic, everyday concern. Attackers will never stop trying to take advantage of your organization's vulnerabilities. As long as threats exist, you need an effective security program to counteract them.

### PROACTIVE CYBERSECURITY

With an end-to-end portfolio of products and services backed by decades of expertise, Sirius is uniquely positioned to help organizations mature their security programs, reduce risk, and take a forward-leaning approach to prevention, detection and response.

Our offerings focus on the fundamental elements of an effective security program with an eye toward helping our clients address the cybersecurity skills gap, and leverage the cloud to boost agility and innovate faster than ever before.

- Infrastructure Security
- Data & Application Security
- Intelligence & Analytics
- Threat & Vulnerability Management
- Identity & Access Management
- Program Strategy & Operations

## SECURITY SOLUTIONS & SERVICES

Sirius takes a comprehensive approach to security and risk management. We offer leading-edge technology solutions, expert implementation and advisory services, comprehensive managed services, and proven methodologies backed by customized testing in our state-of-the-art Technology Evaluation Center. We help to advance your security program and optimize your overall IT risk management strategy so that you can protect your data, your intellectual property, and your brand.

### Infrastructure

Strengthen your first line of defense against sophisticated threats. Our solutions and services help you gain comprehensive visibility into network traffic based on applications, users, and content; remove malicious traffic while maintaining the delivery of legitimate business flows; and, securely manage IoT devices.

### Data & Application

Protect your information assets against mistakes that lead to data leaks and intentional misuse by insiders, as well as external attacks on your information infrastructure. We help you protect data no matter where it is stored, used or transmitted through the development of a data-centric security program to secure applications and databases that contain sensitive information.

### Intelligence & Analytics

Arm yourself with the tactical, operational and strategic insights you need to understand how you are being targeted, and invest wisely in the right set of countermeasures. Our comprehensive professional and managed services and continuous monitoring solutions help you streamline security operations with automation. We can help you respond to, remediate, anticipate and prevent threats to your business.

### Threat & Vulnerability Management

Evaluate the overall state of your security with an objective view of your organization's policies, controls and processes. We facilitate the development of an effective threat and vulnerability management program, building upon your security practices to help you continuously find, prioritize and remediate vulnerabilities. Our expert professional services and leading-edge solutions help to determine whether you have been compromised, and help you take new approaches to limiting dwell time and remediating intrusions.

### Identity & Access Management

Securely connect users to distributed services and deliver accountability and transparency of access to the business. Our IAM solutions and services promote capabilities that span internal and cloud-based services, enhancing end-user experience while ensuring that only the right people have access to the right assets, at the right time, and for the right reasons.

### Program Strategy & Operations

Manage your organization's digital risk and compliance profile. We offer a full range of solutions and services to help you evaluate your program against established cybersecurity frameworks, keep up with evolving data protection and privacy regulations, augment staff, set policy, and develop and execute a cohesive strategy for extending security throughout your supply chain.
