

MEMORIALCARE TECHNOLOGY AND TRAINING CENTER POWERED BY SIRIUS

A TECHNOLOGY CENTER FOR HEALTHCARE EXPERIMENTATION, MEETING AND TRAINING

The MemorialCare Technology and Training Center Powered by Sirius (MTC) was built by MemorialCare and Sirius to serve the unique needs of the healthcare industry. Specifically, it was created with the vision to use technology as an accelerant to improve patient care, patient outcomes, and organizational efficiencies.

The MTC is a lab focused on technology platforms. A venue for client experimentation, meeting and training, the Center's fully populated technology platforms installation has a complete stack of technologies capable of running a 2,000-bed hospital. It holds multiple technologies from Sirius' industry-leading partners, including Cisco, Citrix, F5, IBM, NetApp, Nutanix, Veritas, VMware and more.

Located near MemorialCare's Orange Coast Medical Center in Orange County, CA, the 5,000-square-foot, state-of-the-art facility is complete with a standalone, isolated data center and simulation lab. The MTC provides a platform for exploring technology platform functionality and requirements through:

- Proofs of concept (POCs)
- Testing new technology platform modules and upgrades
- Testing new technology platform hardware and software configurations
- Testing new technologies, including hardware and software, and modified configurations
- Innovation around creative clinical workflows and integrated third-party solutions

TALK TO OUR EXPERTS ABOUT BOOKING THE MTC

The MTC is isolated from MemorialCare's operational environment. It includes a comprehensive collection of the latest technologies (including servers, storage, network, software and tools) to explore various aspects and requirements for a wide range of healthcare and technology platform operational needs. Sirius Healthcare practice leaders are available for facilitating. Contact Sirius for further information about usage options and scheduling at 800-460-1237.

Sirius is a proud member of the CHIME Foundation, a non-profit organization dedicated to thought leadership in the healthcare industry.
